Mm Mortar M19 Fm

The M19 Mortar is a light, smoothbore, muzzle-loading, high-angle-of-fire weapon for light infantry support developed and produced in the United States. It has been replaced in service by the more modern 60 mm M224 Mortar, which has a much longer range and improved ammunition.

M19 mortar - Wikipedia

The M19 Mortar is a light, smoothbore, muzzle loading, high-angle-of-fire weapon for light infantry support developed and produced in the United States. It has been made obsolete and supplanted by the more modern M224 Mortar, which has a much longer range.

M19 mortar | Military Wiki | Fandom

The M19, unveiled in 1942, was of a conventional mortar design by most respects and closely resembled the British 2-inch mortar family. The launch tube could accept projectiles of 60mm caliber with warheads to include high-explosive (HE), illumination and smoke rounds.

Mortar, 60mm M19 Light Infantry Mortar - Military Factory

Using the same ammunitions as the M2 60mm mortar, but lighter weight and with greater freedom in addressing elevation and traverse angles, the M19 was also less accurate. It saw moderate action in Vietnam as well as Korea, mainly to deliver smoke screens during the day and illuminate the immediate battlefield at night.
