The Archaeology of Weapons: Arms and Armour from Prehistory to the Age of Chivalry – the informative, personable survey of weapons by the late sword-expert, Ewart Oakeshott (1916-2002) – remains after forty years one of the best introductions to the history and forms of the European sword from pre-history to the late Middle Ages. It reveals the reasons for its various developments, which include both metallurgical technology and advances in armor and military technique. I wish that I ...

The Archaeology of Weapons: Arms and Armour from ...

Arms and armor from prehistory to the age of chivalry are covered in this detailed analysis of medieval arms development. More than 30 centuries are studied here, but the tone is lively and light, using evidence of arms found during excavations and descriptions in literature and art to lend insight into early warfare. The Archaeology of Weapons is good for high school study or for leisure browsers. --

The archaeology of weapons: arms and armour from ...

In The Archaeology of Weapons, Ewart Oakeshott traces the development of European arms in logical sequence, showing how changes were wrought by the use of new

materials and the ever-shifting demands of war and fashion. This history begins nearly two hundred years before the Christian era, covering among other subjects the charioteers of the Near East, the Roman attitude to arms and the Bronze Age weapons of Europe. The core of the book, however, is the middle ages: a general survey of the ...

British authority on medieval weapons surveys European arms and armor from the Bronze Age to the time of triumph of gunpowder. The Archaeology of Weapons Ewart Oakeshott — 1999 Social Science Arms and Armour from Prehistory to the Age of Chivalry

[PDF] The Archaeology Of Weapons Download Full - PDF Book ...

The weapons, which mainly comprise Paleolithic and Neolithic daggers, maces, arrowheads, spears, staffs, clubs and slings, made from stone, flint, wood, bone and ivory, are considered alongside the evidence of human remains with signs of violent injuries. Finally, Gilbert draws conclusions about early Egyptian warrior society, warfare and hunting rituals and the role of warfare in Egyptian state formation. Includes a corpus of weapons.
