Bots - The New York Times

We approached Andrew Leonard's "Bots" The Origin of New Species" with trepidation. We dogs have a lot of trouble with scientific and technical matters. As Gary Larson noted in "The Far Side", the greatest dog scientists in the world have yet to unravel the mysterious workings of the doorknob. Before we read "Bots", the only computer or internet book we had been able to understand was "Dave Barry in Cyberspace". We were relieved to discover that Andrew Leonard is one of those rare ...

Boots (company) - Wikipedia

The resulting new boot was fabricated in soft calfskin leather, had the trim removed and was cut to fit more closely around the leg. The heels were low cut, stacked around an inch (2.5 centimetres), and the boot stopped at mid-calf. It was suitably hard-wearing for riding, yet smart enough for informal evening wear. The boot was dubbed the Wellington and the name has stuck in English ever ...
