Central African Republic Investment And

Investment for Central African Republic from International Monetary Fund (IMF) for the International Financial Statistics (IFS) release. This page provides forecast and historical data, charts, statistics, news and updates for Central African Republic Investment.

Central African Republic Investment | Moody's Analytics

Economic growth in the Central African Republic slowed to 3.7% in 2018, as renewed insecurity inhibited economic activity by disrupting agricultural, forestry and mining production, and delaying investment projects. However, since 2015, economic growth in the country has outpaced the CEMAC average and is projected to reach 4.8% in 2019.

Central African Republic Overview - World Bank

Few non-French companies have sought to invest in the Central African Republic, however, since licenses are required for imports, and payments for imports from countries outside the Franc Zone are subject to exchange control regulations. The situation worsened beginning in the late 1990s, when potential investors were discouraged by the political and social upheavals in Bangui.
