Designing Interactive Strategy: From Value Chain to Value ...

Strategy is the art of creating value. It provides frameworks, conceptual models, and governing ideas that allow a company's managers to identify opportunities for bringing value to customers and for delivering that value at a profit. This book illustrates how new ways of creating value are being created by current global competition, changing markets, and new technologies. It shows how the focus of strategic analysis should not be the company or the industry, but the value-creating system ...

Designing interactive strategy : from value chain to value ...

The key strategic task is to reconfigure roles and relationships among a constellation of actors--suppliers, partners, customers--in order to mobilize the creation of value by new combinations of players. What is so different about this new logic of value? It breaks down the distinction between products and services and combines them into activity-based "offerings" from which customers can ...
