Form Follows Feeling - The New York Times

The phrase "form follows function" was coined in 1918 by American architect Louis Sullivan, who wrote that if "a building is properly designed, one should be able with a little attention, to read...

American Architecture: Form Doesn't Follow Function | Live ...

The phrase "form (ever) follows function" became a battle cry of Modernist architects after the 1930s. The credo was taken to imply that decorative elements, which architects call "ornament", were superfluous in modern buildings. However, Sullivan himself neither thought nor designed along such lines at the peak of his career. Indeed, while his buildings could be spare and crisp in their principal masses, he often punctuated their plain surfaces with eruptions of lush

Form follows function - Wikipedia

Form follows function is an architectural principle that states that the shape or form of a building or structure is dictated by its function. It is considered a defining

characteristic of modern architecture.Taken to its extreme, form follows function is a design philosophy that suggests that the role of architecture is to define structure and not aesthetics.
